Introduction

Global grade systems

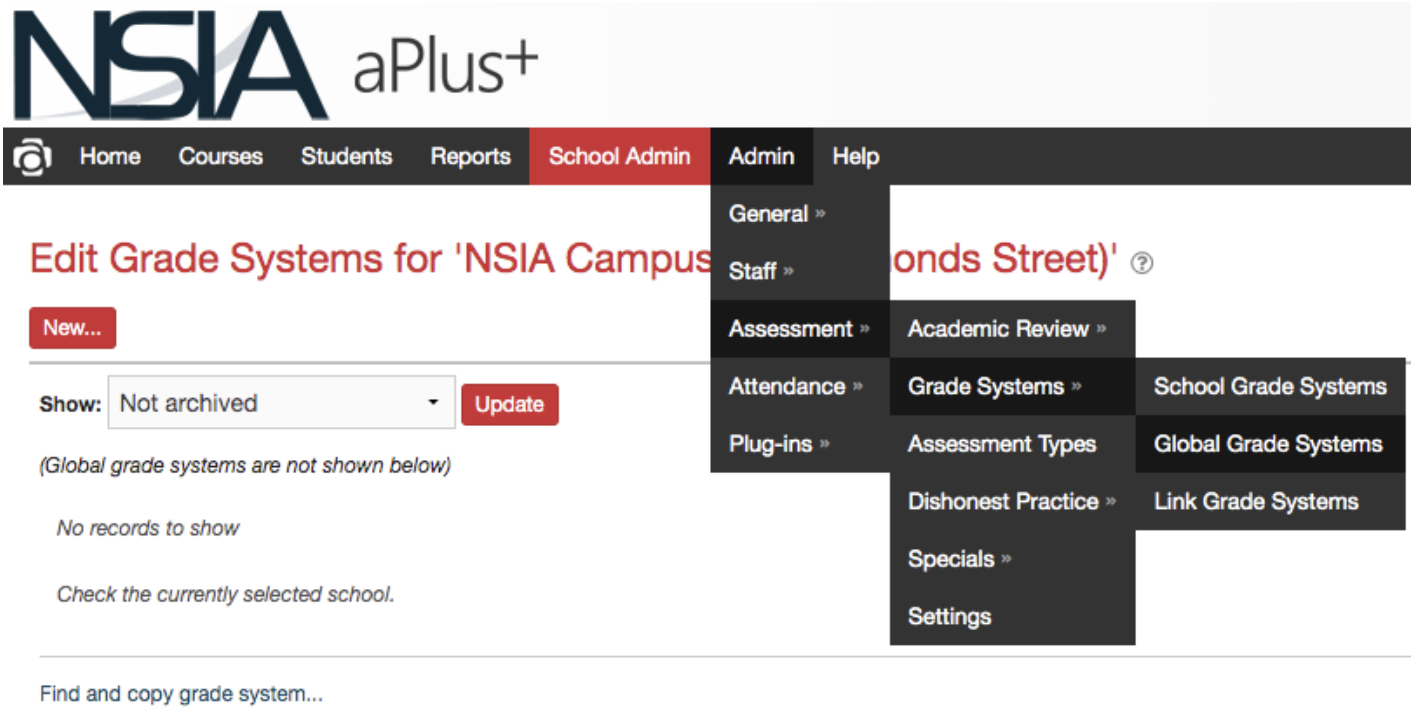

Grade system define how assessments are a marked. Global grade system can be applied to any qualification delivered by a school. It it also possible to create local grade system for a particular campus.

The grade system will establish rules for passing and failing a competency based qualification, and what grades to assign to an achievement based qualification.

To add a new grade system

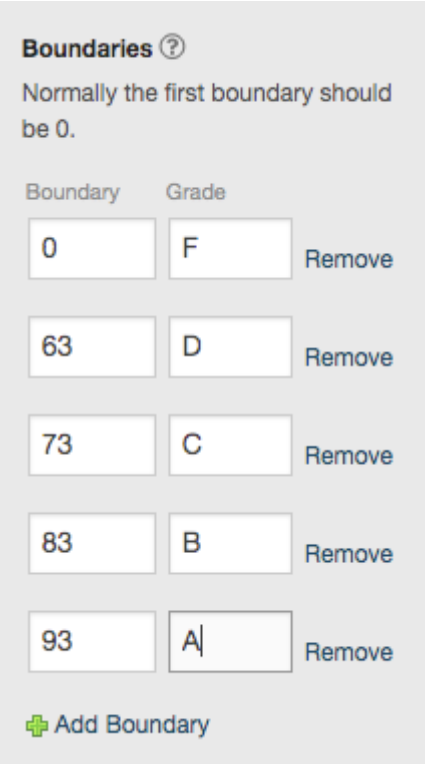

select **Admin**->**Assessment**->**Grade Systems**->**Global Grade Systems** from the main menu tabs.

Then click **New...**

Tick **Courses** for Applies to and give the system a title ("*competency system*", "*Achievement system*").

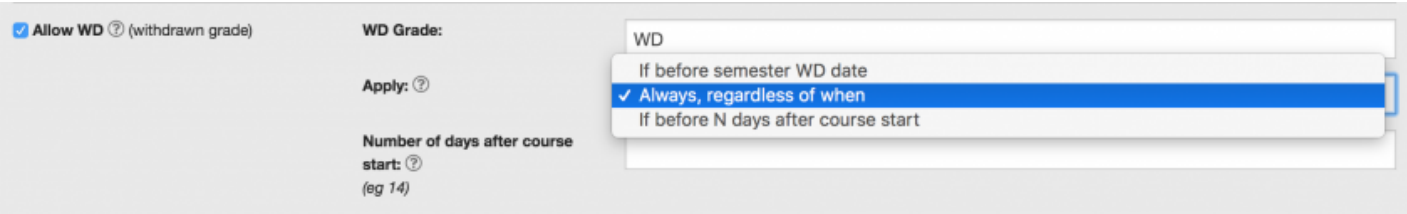

We use boundaries on the right to associate marks to grades.

We can then indicate which grades will allow for a pass.

use "**I**" to indicate **Incomplete grade.**

Tick **Allow WD** and set WD Grade: to "**WD**", and apply: to '**Always, regardless of when**'.

Click **Create**.

> A competency based grade system will have one boundaries of 0 = F and 1 = C, Fail and complete.
